RE: CPF 3-2024-006-NOA

Dear Mr. Onderdonk:

From April 24 - 27, 2023, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.), conducted an on-site pipeline safety inspection of Suburban Propane, L.P.'s (Suburban) procedures for operations and integrity management in West Salem, Wisconsin. As a result of the inspection, Suburban was issued a Notice of Amendment on January 11, 2024, which proposed amendment of its procedures.

Suburban submitted its amended procedures on February 12, 2024. My staff has reviewed the amended procedures and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration
