Ms. Laura Demman  
President & CEO  
Northern Natural Gas Company  
1111 South 103rd Street  
Omaha, NE 68124

**RE: CPF 3-2024-027-NOA**

Dear Ms. Demman:

From September 8 through September 11, and September 23 through September 25, 2020, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an inspection of the procedures for the Northern Natural Gas Company (NNG) Control Room located in Omaha, Nebraska. On July 12, 2024, pursuant to 49 CFR § 190.206, PHMSA issued a Notice of Amendment which proposed amendment of NNG's procedures.

NNG submitted its amended procedures, with the final submission occurring on November 10, 2025. PHMSA has reviewed the amended procedures, and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

David Barrett  
Acting Director, Central Region, Office of Pipeline Safety  
Pipeline and Hazardous Materials Safety Administration

cc: Thomas Correll, VP, Pipeline Safety and Risk, NNG, thomas.correll@nngco.com
