NGL Supply Terminal Company, LLC

RE: CPF 3-2024-039-NOA

Dear Mr. Robinson

From June 5 to June 9, 2023, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), pursuant to Chapter 601 of 49 United States Code (U.S.C.), inspected the procedures for Control Room Management (CRM) of NGL Supply Terminal Company, LLC (NGL Supply) in Cushing, Oklahoma. On May 8, 2024, pursuant to 49 CFR § 190.206, PHMSA issued a Notice of Amendment which proposed amendment of NGL Supply's procedures.

NGL Supply submitted its amended procedures on October 31, 2024 and provided updates on May 28, 29, and July 2, 2025. PHMSA has reviewed the amended procedures, and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed.
Thank you for your cooperation.

Sincerely,

David Barrett
Acting Director, Central Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
