RE: CPF 3-2024-041-NOA

Dear Mr. Sheehy:

From February 2, 2023, to December 10, 2023, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.), inspected on-site Rockies Express Pipeline LLC's (REX) procedures for the operations and maintenance of the natural gas pipeline in Lakewood, Colorado. As a result of the inspection, REX was issued a Notice of Amendment on November 22, 2024, which proposed amendment of your procedures.

REX submitted its amended procedures on December 17, 2024. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed.
Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
