**Request for Hearing, Preliminary Statement of Issues
and Request for Informal Meeting of
Texas Gas Transmission, LLC**

Pursuant to § 190.208(a)(4) and § 190.211, Texas Gas Transmission, LLC (Texas Gas) submits a Request for Hearing and Preliminary Statement of Issues regarding the Notice of Probable Violation and Proposed Civil Penalty (Notice) issued on May 21, 2024. The Notice contains one alleged violation and proposes to assess a civil penalty of \$50,200.

Texas Gas is committed to public safety and operating its pipeline facilities in accordance with PHMSA's regulations but contests the alleged violation and proposed civil penalty as unsupported by evidence. In a concurrently filed written response, Texas Gas requests that the alleged violation and the proposed civil penalty be withdrawn.

As permitted under 49 U.S.C. § 60117(b)(1),¹ Texas Gas requests that PHMSA convene an informal meeting so that the parties can discuss the alleged violation and proposed civil penalty. Texas Gas also requests that the presiding official delay scheduling a hearing to allow the parties sufficient time to meet to resolve the allegation in the Notice.

Request for Hearing

Texas Gas requests that PHMSA convene an in-person hearing. Texas Gas will be represented by legal counsel at the hearing and intends to raise the issues identified below in its Preliminary Statement of Issues. Texas Gas reserves the right to revise this Preliminary Statement of Issues at or before the hearing based on any additional information that may be provided during this proceeding, including the informal meeting.

¹ 49 U.S.C. § 60117(b)(1) (2018), as amended by The Protecting our Infrastructure of Pipelines and Enhancing Safety Act of 2020, Pub. L. No. 116-260, div. R, title I, § 108(a)(2), 134 Stat. 2221, 2223 (Dec. 27, 2020).

Preliminary Statement of Issues

Item 1: § 192.907(a) What must an operator do to implement this subpart?

Whether OPS failed to satisfy its burden of demonstrating a violation of § 192.907(a) because the case file contains no evidence that Texas Gas did not follow its Integrity Management Procedure.

Whether evidence in the case file proves that Texas Gas followed its Integrity Management Procedure and did not violate § 192.907(a).

Whether the proposed civil penalty is inappropriate and unsupported by the facts, the case file, the Pipeline Safety Laws and relevant Part 190 and Part 192 regulations.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Tony G. Rizk", with a stylized flourish extending to the right.
