Re: CPF No. 3-2024-050-NOPV

Dear Mr. Norton:

Enclosed please find the Final Order issued in the above-referenced case. It makes findings of violation, finds that the civil penalty amount of \$97,100 has been paid in full, and specifies actions that need to be taken to comply with the pipeline safety regulations. When the terms of the compliance order are completed, as determined by the Director, Central Region, this enforcement action will be closed. Service of the Final Order by e-mail is effective upon the date of transmission and acknowledgement of receipt as provided under 49 CFR § 190.5.

Thank you for your cooperation in this matter.

Sincerely,

LINDA GAIL

FINAL ORDER

On August 28, 2024 pursuant to 49 CFR § 190.207, the Director, Central Region, Office of Pipeline Safety (OPS), issued a Notice of Probable Violation (Notice) to Magellan Pipeline Company, LP (Respondent). The Notice proposed finding that Respondent had violated the pipeline safety regulations in 49 CFR. Part 195 and proposed a civil penalty of \$97,100. The Notice also proposed certain measures to correct the violations. Respondent did not contest the allegations of violation or corrective measures and paid the proposed civil penalty on October 1, 2024. In accordance with § 190.208(a)(1), such payment authorizes the entry of this final order.

Based upon a review of all the evidence, pursuant to § 190.213, I find Respondent violated the pipeline safety regulations listed below, as more fully described in the enclosed Notice, which is incorporated by reference:

49 CFR § 195.428 (Item 1) — Respondent failed, in two instances, to inspect and test its overpressure safety devices and overfill protection systems in accordance with the timeline prescribed in § 195.428(a).

49 CFR § 195.452 (Item 2) — Respondent failed to address each element of the integrity management program, including by failing to verify the risk factors used in identifying its pipeline segments that could affect a high consequence area for less than 15 months, in accordance with § 195.452(j)(2) and § 195.452(b)(4)(i).

49 CFR § 195.583 (Item 3)—Respondent failed to perform periodic atmospheric corrosion inspections (ACI) on exposed pipe sections at two separate locations, in accordance with § 195.583(a).

These findings of violation will be considered prior offenses in any subsequent enforcement action taken against Respondent. In accordance with 49 CFR. § 190.223, Respondent is assessed

the proposed civil penalty amount of \$97,100, which Respondent has already paid in full.

Compliance Actions

Pursuant to 49 U.S.C. § 60118(b) and 49 CFR. § 190.217, Respondent is ordered to take the actions proposed in the enclosed Notice to correct the violations. The corrective measures must be completed within 90 days of receipt of the Final Order. The Director may grant an additional extension of time to comply with any of the required items upon a written request timely submitted by the Respondent and demonstrating good cause for an extension. Upon completion of the ordered actions, Respondent may request that the Director close the case. Failure to comply with this Order may result in the assessment of civil penalties under 49 CFR. § 190.223 or in referral to the Attorney General for appropriate relief in a district court of the United States.

The terms and conditions of this order are effective upon service in accordance with 49 CFR. § 190.5.
