Chris Vodicka
Vice President
BP Pipeline (North America) Inc.
30 S. Wacker Drive
Chicago, IL 60606

RE: CPF 3-2024-080-NOA

Dear Mr. Vodicka:

From September 23, 2024 through September 27, 2024, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.), inspected the procedures for the hazardous liquid pipeline system of BP Pipeline (North America) Inc. (BP) in Merrillville, Indiana. On December 23, 2024, pursuant to 49 CFR § 190.206, PHMSA issued a Notice of Amendment (Notice) in the above-referenced case. The Notice proposed amendment of BP's procedures.

BP submitted its amended procedures on January 17, 2025. PHMSA has reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed.
Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
