President and CEO
Lambda Energy Gathering, LLC
12012 Wickchester Lane, Suite 300
Houston, TX 77079

RE: CPF 3-2025-010-NOA

Dear Mr. Faulkner:

From June 11 to July 25, 2024, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.), conducted an inspection of Lambda Energy Gathering, LLC's (Lambda) procedures for Control Room Management (CRM) in Kalkaska, Michigan. On January 14, 2025, pursuant to 49 CFR § 190.206, PHMSA issued a Notice of Amendment which proposed amendment of Lambda's procedures.

Lambda submitted its amended procedures, with its final submission on July 2, 2025. PHMSA has reviewed the amended procedures, and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

David Barrett
Acting Director, Central Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
