RE: CPF 3-2025-016-NOA

Dear Ms. Pompa:

From May 6 through May 23, 2024, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.), inspected onsite Holly Energy Partners, L.P.'s (Holly Energy) plans and procedures for Control Room Management (CRM) in Artesia, New Mexico. Holly Energy Partners, L.P., is a wholly owned subsidiary of HF Sinclair Corporation.

On July 14, 2025, pursuant to 49 CFR § 190.206, PHMSA issued a Notice of Amendment which proposed amendment of Holly Energy's procedures.

Holly Energy submitted its amended procedures on November 13, 2025, and provided supplements on January 27, 2026. PHMSA has reviewed the amended procedures, and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

David Barrett
Acting Director, Central Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
