Ms. Cynthia Hansen
President/Chief Operating Officer
Texas Eastern Transmission, LP
915 North Eldridge Parkway
Houston, TX 77079

RE: CPF 3-2025-028-NOA

Dear Ms. Hansen:

During the weeks of May 13, June 3, and June 24, 2024, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.), conducted an inspection of Texas Eastern Transmission, LP's (TET) procedures for the new gas integrity rule in Houston, Texas. On July 1, 2025, pursuant to 49 CFR § 190.206, PHMSA issued a Notice of Amendment which proposed amendment of TET's procedures.

TET submitted its amended procedures on July 31 and October 31, 2025. PHMSA has reviewed the amended procedures, and it appears that the inadequacies outlined in the Notice of Amendment for items one through six have been corrected. With regards to item seven, upon further discussions with your personnel and clarifications, it has been determined that the procedure is adequate, and no amendment is required.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

David Barrett
Acting Director, Central Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration

cc: Mr. Peter Seydewitz, Director, Operational Excellence
Ms. Salima Abdulla, Manager, Operational Compliance
Mr. Michael McGrath, Strategic Advisor, Operational Compliance
