Dear Mr. Szydlowski:

On November 14-19, 2010, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Rose Rock Midstream L.P. (Rose Rock, formerly SemCrude) procedures for Integrity Management in Oklahoma City, OK. As a result of the inspection, Rose Rock was issued a Notice of Amendment on February 24, 2012, which proposed amendment of your procedures.

During January through May 2015, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Rose Rock procedures for Integrity Management in Oklahoma City, OK, during which the amended procedures were reviewed, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley
Director, Southwest Region
