Vice President Operations

Dear Mr. Fox:

During the week of November 28 - December 2, 2011, and again on February 1, 2012, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected the Kinder Morgan CO2 (KMCO2) Cortez pipeline and procedures in Cortez, CO and Houston, TX. As a result of the inspection, KMCO2 was issued a Notice of Amendment on June 26, 2012, which proposed amendment of your procedures. On July 10, 2012, PHMSA received a response in which KMCO2 did not contest the findings but requested a time extension until September 21, 2012. PHMSA granted this time extension request on August 10, 2012.

The KMCO2 amended procedures were received on September 20, 2012. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
