Houston, TX 77002

CPF 4-2014-5019M

Dear Mr. Bacon:

From June 2013 through May 2014, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected the Enterprise Crude Pipeline, LLC (EP Crude) Seaway Loop, WEP III and ATEX 6 construction projects located in Oklahoma, Texas and New Mexico. The inspections included reviews of construction specifications, construction records, and onsite field visits. As a result of the inspection, EP Crude was issued a Notice of Amendment on August 12, 2014 which proposed amendment of your procedures.

EP Crude submitted the requested procedural modifications on October 3, 2014. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
