Dear Mr. Parrish:

On October 2014 to February 2015, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Panther Pipeline, LTD (Panther) procedures for Operations and Maintenance, and Integrity Management in Texas City, Texas. As a result of the inspection Panther was issued a Notice of Amendment on December 21, 2015, which proposed amendment of your Operations and Maintenance procedures and Integrity Management Plan.

During a meeting on February 9, 2019, with an American Midstream representative, PHMSA was informed Panther would be adopting American Midstream's (AMID) O&M procedures and IMP plan. On March 14, 2019 AMID submitted its O&M procedures and IMP plan for PHMSA's review.

My staff has reviewed AMID's submitted O&M procedures and IMP plan, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

Accordingly, this case is now closed and no further action is contemplated with respect to the matters involved in this case. Thank you for your cooperation in this matter.

Sincerely,

Mary L. McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
