Dear Mr. Drake:

During the period from April 11, 2016 to September 8, 2016, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Ozark Gas Transmission LLC's procedures in Oklahoma and Arkansas. As a result of the inspection, Ozark Gas Transmission LLC was issued a Notice of Amendment on November 9, 2016, which proposed amendment of your procedures.

Ozark Gas Transmission LLC submitted its amended procedures on December 29, 2016. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R.M. Seeley
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
