Dear Mr. Teague:

On January 9 through May 24, 2017, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Enterprise Products Operating, LLC procedures in Houston, Texas. As a result of the inspection, Enterprise Products Operating, LLC (Enterprise) was issued a Notice of Amendment on November 2, 2017, which proposed amendment of procedures. Based on Enterprise's response to the Notice of Amendment received on March 01, 2018, an Order Directing Amendment was issued on March 27, 2019.

Enterprise submitted its amended procedures on April 24, 2019. My staff reviewed the amended procedures and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
