Dear Mr. Fusco:

On January 16, 2020, representatives of the Pipeline and Hazardous Materials Safety Administration, Office of Pipeline Safety (OPS), pursuant to Chapter 601 of 49 United States Code, inspected Sabine Pass LNG's (Cheniere) system and associated procedures at the Sabine Pass facility located in Cameron, Louisiana. As a result of the inspection, a Notice of Amendment (NOA) was issued to Cheniere on June 12, 2020.

Cheniere submitted its amended procedures on August 10, 2020 and a Task Based Risk Assessment on February 2, 2021. My staff reviewed the amended procedures and Task Based Risk Assessment, and it appears that the inadequacies as outlined in this Notice of Amendment have been addressed.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
