Dear Mr. Smith:

On August 7, 2019, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Freeport LNG Development, L.P.'s procedures for the immediate notice of certain incidents following an incident that occurred on August 1, 2019, in Freeport, Texas. As a result of the inspection, PHMSA issued a Notice of Amendment to CITGO on July 14, 2020, which proposed amendments to its procedures.

Freeport LNG Development, L.P. submitted its amended procedures on February 12, 2021. PHMSA staff reviewed the amended procedures, and it appears that the inadequacies identified in the Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
