ELECTRONIC MAIL - RETURN RECEIPT REQUESTED

June 11, 2021

Vishal Gupta
President and General Manager
Permian EOR at Occidental Petroleum
5 Greenway Plaza
Houston, Texas 77046

CPF 4-2020-5016M

Dear Mr. Gupta:

From January 22, 2018 through May 4, 2018, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code (U.S.C.) inspected Occidental Petroleum Corporation's (OXY) Bravo Pipeline System operations, maintenance, and emergency response procedures in Sundown, Texas. As a result of the inspection, PHMSA issued a Notice of Amendment to OXY on November 24, 2020, which proposed amendments to its procedures.

OXY submitted its final amended procedures on February 25, 2021. PHMSA staff reviewed the amended procedures, and it appears the inadequacies identified in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
