Re: Response to CPF 4-2021-010-NOPV

Dear Ms. McDaniel:

Please see the 4 attachments outlining the analysis to determine if a Close-interval survey or comparable technology was necessary for the Benny Express, T-Station to CR-1, T-Station to Mason Station, and Mason Station to Jackrabbit pipelines.

This analysis corresponds with addressed procedure, Section 6.1.2 under heading 6.0 Close Interval Surveys (CIS).

Best regards,
