Dear Mr. McComas:

From August 10, 2020 through October 7, 2020, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code (U.S.C.) inspected Easton Energy Pipelines LLC's (Easton) Ocelot Energy Liquids LPG & HVL pipeline system, which runs from Iowa, Louisiana to Orange, Texas. As a result of the inspection, PHMSA issued a Notice of Amendment to Easton on March 18, 2021, which required amendments to its procedures.

On April 5, 2021, Easton submitted its amended procedures and after receiving PHMSA's feedback, provided an additional amended copy of the procedures on May 14, 2021. PHMSA reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
