Re: Trunkline Gas Company
Notice of Amendment
CPF 4-2023-028-NOA

Dear Mr. Lethcoe:

Trunkline Gas Company (TGC or Company) is in receipt of the Pipeline and Hazardous Materials Safety Administration's (PHMSA) Notice of Amendment (NOA) issued on March 03, 2023. By way of background, the Notice was issued following a PHMSA inspection of the TGC system from February 28 to August 25, 2022. The Notice detailed one (1) apparent inadequacy found within the Company's written procedures concerning atmospheric corrosion control found in 49 C.F.R. Part 192.

The Company has completed a review and update of its procedure D.44 Atmospheric Corrosion Inspection to address the alleged inadequacy identified in the NOA. A copy of the updated procedure is included with this response.

TGC shares PHMSA's commitment to pipeline safety, public safety, and pipeline integrity. Should you have any questions or concerns during the review of this submission please contact me at (713) 989-7126 or via email at todd.nardozzi@energytransfer.com.

Sincerely,

Todd Nardozzi
Sr. Manager – DOT Compliance
