Dear Mr. Woods:

From August 15 through September 29, 2022, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Cove Point LNG,LP (Cove Point LNG) procedures in Lusby, Maryland. As a result of the inspection, Cove Point LNG was issued a Notice of Amendment on April 20, 2023, which proposed amendment of your procedures.

Cove Point LNG submitted its amended procedures on May 20, 2023 and December 28, 2023. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Bryan Lethcoe
Director, Southwest Region, Office of Pipeline Safety
