Dallas, Texas 75201

CPF 4-2023-040-NOA

Dear Mr. Jennings:

From February 28 to December 7, 2022, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code (U.S.C.) inspected Holly Energy Partners – Operating, L.P.'s (Holly) written operations and maintenance procedures in Dallas, Texas.

On March 6, 2023, PHMSA issued the Notice, CPF 4-2023-040-NOA, to Holly requiring amendments of its operations and maintenance procedures. On March 29, 2023, Holly requested a time extension to respond to the Notice. PHMSA granted the time extension on April 4, 2023 granting the extension from April 5, 2023 to April 28, 2023.

Holly submitted its amended procedures on April 28, 2023. PHMSA reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Bryan Lethcoe
Director, Southwest Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
