Dear Ms. Sudduth:

From July 31 to August 4 and from August 7-8, 2023 of the on-site inspection, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Interior Gas Utility's (IGU) procedures in Fairbanks, AK. As a result of the inspection, IGU was issued a Notice of Amendment on August 28, 2024, which proposed amendment of your procedures.

IGU submitted its amended procedures on September 26, 2024. PHMSA reviewed the amended procedures, and it appears that the inadequacy outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Bryan Lethcoe
Director, Southwest Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
