

September 29, 2024

Dear Mr. Bryan Lethcoe
Director, Southwest Region
Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
U.S. Department of Transportation
8701S. Gesner, Suite 630
Houston, Texas 77074

Response to NOTICE OF PROBABLE VIOLATION REFERENCE CPF 4-2024-042-NOPV

On August 29th, 2024, Eagle LNG Partners (Eagle LNG) received a NOTICE OF PROBABLE VIOLATION ('NOPV') reference CPF 4-2024-042-NOPV from the Office of Pipeline Safety Southwest Region Director and *Proposed Compliance Order*.

The NOPV alleges that Eagle LNG failed to take prompt corrective or remedial action whenever an operator learns by inspection or otherwise that atmospheric, external, or internal corrosion is not controlled as required by 49 CFR §193.2637. Specifically, the NOPV alleges that during the inspection, the PHMSA inspector observed extensive outer corrosion on the N2 Recycle Compressor, especially near the flanges.

In accordance with 49 CFR §190.208(b)(1), Eagle LNG will not contest the allegations in the subject NOPV and will take the actions in the *Proposed Compliance Order* listed below upon issuance of a Final Order pursuant to 49 CFR §190.213.

In accordance with the *Proposed Compliance Order*, Eagle LNG will:

- A. In regard to item 1 of the NOPV pertaining to Eagle LNG's failure to take prompt corrective or remedial action whenever an operator learns by inspection or otherwise that atmospheric, external, or internal corrosion is not controlled as required by this Part 193, Subpart G, Eagle LNG will reinspect the N2 Recycle Compressor, remediate all corrosion, and provide inspection records and photographs of the remediation of the N2 Recycle Compressor to the Director, Southwest Region, PHMSA within 60 days of receipt of the Final Order.

We look forward to a prompt and successful resolution of this matter. Please don't hesitate to reach out to me if further discussion or information is needed.

Sincerely,

A handwritten signature in blue ink, appearing to be "A. [unclear]".
