RE: CPF 4-2024-063-NOA

Dear Mr. Grubb:

From May 6 to May 10, 2024, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Southern LNG, LLC's (Southern LNG) procedures in Elba Island, Georgia. As a result of the inspection, Southern LNG was issued a Notice of Amendment on November 26, 2024, which proposed amendment of your procedures.

Southern LNG submitted its amended procedures on December 13, 2024. My staff has reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Bryan Lethcoe
Director, Southwest Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
