Dear Mr. Rosa:

From August 5 to September 18, 2023, of the on-site inspection, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code (U.S.C.) inspected Navigator Panhandle Holdco, LLC's, and Navigator Ph Crossing LLC's (together, Navigator) procedures for its crude oil pipeline assets in Dallas, Texas.¹

Navigator submitted its amended and supplementary procedures on August 28th, 2025, and October 9th, 2025 respectively. PHMSA staff reviewed these procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Bryan Lethcoe
Director, Southwest Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
