RE: CPF 4-2025-038-NOA

Dear Ms. Hansen:

From June 4 to 6, 2024, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of Title 49 of the United States Code (U.S.C.), inspected East Tennessee Natural Gas, LLC's (ETNG) procedures for the operation and maintenance of its liquefied natural gas (LNG) facilities in Kingsport, Tennessee.

As a result of this inspection, PHMSA issued ETNG a Notice of Amendment on July 8, 2025, proposing revisions to its procedures. ETNG submitted its amended procedures on August 5, 2025. My staff has reviewed the amended procedures, and it appears that the inadequacies identified in the Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Bryan Lethcoe
Director, Southwest Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
