Dear Mr. Agarwal:

On July 23, 2012, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site Control Room Management inspection of ConocoPhillips' procedures in Prudhoe Bay, Alaska. As a result of the inspection, ConocoPhillips was issued a Notice of Amendment on December 3, 2012, which proposed amendment of your procedures.

ConocoPhillips submitted its amended procedures on December 17, 2012. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dennis Hinnah
Deputy Director, Western Region
Pipeline and Hazardous Materials Safety Administration
