Dear Mr. Traeger:

Between December 17, 2013 and June 26, 2014, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Front Range Pipeline LLC's (Front Range) procedures for your Control Room Management (CRM) in Laurel, Montana. As a result of the inspection, Front Range was issued a Notice of Amendment on July 28, 2015, which proposed amendment of your procedures.

Front Range submitted its amended procedures on December 31, 2015. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

For Chris Hoidal
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
