April 20, 2018

CPF 5-2018-1003M

Dear Ms. Kim West:

Raton Gas Transmission (RGT) received your letter dated March 16, 2018 on March 20, 2018 concerning the findings of the June 19-23 and June 26-29, 2017 PHMSA review, pursuant to Chapter 601 of 49 United States Code.

We are writing you to provide our modified Operations & Maintenance (O&M) Manual and Emergency Plan in accordance with the apparent inadequacies listed in your referenced letter. After a comprehensive review of your comments and our documents, it became apparent that we would be able to adequately modify our documents within the thirty-day response deadline. We were able to comprehensively address the changes required and incorporate them within the scope of our annual review and update of these documents.

RGT has ensured that each item outlined in your "Notice of Amendment Letter CPF 5-2018-1003M" was addressed and enhanced/corrected, as necessary in the RGT O&M Manual and Emergency Plan in order to meet the regulations cited in your letter.

We are also including copies of the Operator Qualification Plan, the Damage Prevention Plan, the Integrity Management Plan, and the Public Awareness Plan due to extensive changes required by the changed O&M Manual and Emergency Plan.

We are providing an updated, complete copy of each of the referenced documents to complete your records prior to the requested thirty-day deadline of April 20, 2018. These copies are also furnished on the enclosed CD.

Thank you for your support.
Sincerely,

Patricia P. Link
President
