Mr. Robert Rose
President
Idaho Pipeline Corporation
P.O. Box 35236
Sarasota, FL 34242

**CPF 5-2018-6016M
Closure Letter**

Dear Mr. Rose:

During the weeks of September 5 through 8 and September 18 through 21, 2017, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Idaho Pipeline Corporation's procedures in Boise, Idaho. As a result of the inspection, Idaho Pipeline Corporation was issued a Notice of Amendment on October 10, 2018, which proposed amendment of your procedures. A Final Order Directing Amendment was issued on August 8, 2019. Idaho Pipeline submitted a response, received by PHMSA on September 18, 2019.

PHMSA has determined that given the passage of time, it would be prudent to review the items identified in the NOA and Final Order during a future inspection rather than to continue the current proceeding. PHMSA will address any remaining items with Idaho Pipeline Corporation at that time. Accordingly, this case is now closed.

Accordingly, PHMSA has determined no other action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
