Closure Letter**

Dear Mr. Pfoff:

On August 20 through 22, 2018, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Aurora Exploration, LLC's procedures in Anchorage, Alaska. As a result of the inspection, Aurora Exploration, LLC was issued a Notice of Amendment (NOA) on February 25, 2019, which proposed amendment of your procedures. Amaroq Resources LLC¹ did not submit amended procedures to PHMSA within 60 days of the receipt of the NOA and was issued an Order Directing Amendment on January 7, 2020.

Amaroq Resources, LLC submitted its amended procedures on February 18, 2020. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in the NOA and Order Directing Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
