**CPF 5-2019-2001; 5-2019-2002W
Closure Letter**

Dear Mr. Saugier:

On May 18, 2020, the Pipeline and Hazardous Materials Safety Administration (PHMSA) issued a Consent Order incorporating the terms of a Consent Agreement between PHMSA and Hilcorp Alaska LLC (Hilcorp) related to the jurisdictional status and regulatory classification of certain natural gas and hazardous liquid pipelines in Upper Cook Inlet of Alaska (Covered Pipelines). The Consent Order and Consent Agreement (Agreement) required Hilcorp to bring the Covered Pipelines into Hilcorp's regulatory compliance programs through the Compliance Plan agreed to by PHMSA and Hilcorp.

In a February 18, 2025 letter to PHMSA, Hilcorp stated that it had met the terms of the Compliance Plan and requested termination of the Agreement consistent with *Section XI Termination* of the Agreement.

PHMSA has reviewed compliance documents provided by Hilcorp and records from inspections that PHMSA has conducted during the pendency of the Consent Order and Consent Agreement. Based on the results of that review, this case is now closed, and no further action is contemplated with respect to the matters involved in this case. PHMSA notes that under *Section XII Survival* of the Agreement, notwithstanding closure of this case, Hilcorp will maintain the regulatory classifications of the Covered Pipelines and parts of the Compliance Plan absent a change in law, regulation, or operational status.

Thank you for your cooperation in this matter.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
