Closure Letter**

Dear Mr. Hager:

From July 30 to August 2, 2018, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Devon Energy's procedures in Oklahoma City, Oklahoma. As a result of the inspection, Devon Energy was issued a Notice of Amendment on January 10, 2019, which proposed amendment of your procedures.

After requesting and receiving an extension of time to respond, Devon responded to the Notice by letter dated February 6, 2019. The company contested the allegations of inadequacy, provided a summary of its position, and included information concerning changes that it had made to its procedures. Respondent did not request a hearing and therefore has waived its right to one.

On April 6, 2020, an Order Directing Amendment was issued by PHMSA.

Devon Energy submitted a response to its amended procedures on June 3, 2020. My staff has reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you

for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
