Mr. Jerome T. Schmitz
Vice President – Engineering
Southwest Gas Transmission
LVA-581
5241 Spring Mountain Road
Las Vegas, Nevada 89150

CPF 5-2022-015-NOA

Dear Mr. Schmitz:

From May 10 through May 14, 2021, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of title 49, United States Code, conducted an on-site pipeline safety inspection of Southwest Gas Transmission's written procedures for Gas Control in Las Vegas, Nevada. As a result of the inspection, PHMSA issued to Southwest Gas Transmission, pursuant to 49 CFR § 190.206, a Notice of Amendment (NOA) on June 22, 2022, which proposed amendment of your procedures. Southwest Gas Transmission submitted a response on July 5, 2022.

PHMSA has determined that given the passage of time, it would be prudent to review the items identified in the NOA during a future inspection rather than continue the current proceeding. PHMSA will address any remaining items with Southwest Gas Transmission at that time. Accordingly, this case is now withdrawn.

Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
