**CPF 5-2022-016-NOA
Closure Letter**

Dear Mr. Britton:

From August 2 through 6, 2021, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Interior Gas Utility's (IGU) procedures in Fairbanks, Alaska. As a result of the inspection, IGU was issued a Notice of Amendment on November 3, 2022, which proposed amendment of your procedures.

IGU submitted its amended procedures on December 1, 2022 and subsequent information on January 16, 2023. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
