**CPF 5-2022-027-NOA
Closure Letter**

Dear Mr. Hart:

From August 2 through 6, 2021, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, inspected Eni US Operating Co., Inc.'s (Eni) procedures for control room management in Anchorage and North Slope Borough, Alaska. As a result of the inspection, Eni was issued a Notice of Amendment on September 7, 2022, which proposed amendment of your procedures.

Eni submitted its amended procedures on September 20, 2022. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
