Closure Letter**

Dear Mr. Sauer:

On October 4 through October 8, 2021, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Phillips 66's procedures. As a result of the inspection, Phillips 66 was issued a Notice of Amendment on April 25, 2022, which proposed amendment of your procedures.

Phillips 66 submitted its amended procedures on September 1, 2022. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
