Closure Letter**

Dear Ms. Shank:

From February 28 through March 4, 2022, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, inspected Mountain West Pipeline, LLC's (Mountain West, formerly Dominion Questar) procedures for Control Room Management in Salt Lake City, Utah. As a result of the inspection, Mountain West was issued a Notice of Amendment on December 19, 2022, which proposed amendment of your procedures.

Mountain West submitted its amended procedures on January 11, 2023. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
