**CPF 5-2023-014-NOA
Closure Letter**

Dear Mr. Schedule:

From June 7 through June 11, 2021, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.), inspected Florida Power & Light's procedures for control room operations in Houston, Texas.

As a result of the inspection, Florida Power & Light was issued a Notice of Amendment on January 9, 2023, which proposed amendment of your procedures. Florida Power & Light submitted amended procedures on January 17, 2023.

My staff has reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
