**CPF 5-2023-018-NOA
Closure Letter**

Dear Mr. Insulla:

From April 25 through April 29, 2022, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, inspected Eni US Operating Co., Inc. (ENI) Nikaitchuq Pipeline (NPL) assets including the 10-inch Sales Oil Pipeline & the 2-inch Diesel Pipeline, procedures for valve maintenance, maintenance and operations, and training and qualifications, in Prudhoe Bay, Alaska. As a result of the inspection, ENI was issued a Notice of Amendment (NOA) on December 27, 2023, requiring amendment of inadequate procedures. ENI responded to the NOA on January 25, 2024 outlining a plan of action to address each item of the NOA.

ENI submitted its amended procedures on March 22, 2024. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
