Mr. Kollin Schade
Calumet Montana Refining, LLC
1020 Smelter Avenue, NE
Black Eagle, MT 59414

**CPF 5-2023-021-NOPV
Closure Letter**

Dear Mr. Schade:

From June 6, 2022, through June 10, 2022, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.), inspected your Bootlegger pipeline in Great Falls, Montana. As a result of the inspection, Calumet was issued a Notice of Probable Violation and Proposed Compliance Order on February 6, 2023, which proposed installing an OverPressure Protection (OPP) system.

Calumet submitted its documentation of the installed OPP system on September 24, 2024. My staff reviewed the documentation, and it appears that the inadequacy outlined in this Proposed Compliance Order has been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
