**CPF 5-2023-036-NOA  
Closure Letter**

Dear Mr. Colyer:

From July 25 through 29, 2022, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), pursuant to Chapter 601 of 49 United States Code (U.S.C.), inspected your control room procedures and records of Contango Resources (Contango) in Midwest, Wyoming. As a result of the inspection, Contango was issued a Notice of Amendment on October 23, 2023, which proposed amendment of your procedures. On January 16, 2024 and June 28, 2024 PHMSA granted additional time for Contango to complete its response.

Contango submitted its amended procedures on September 30, 2024. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

For Dustin Hubbard  
Director, Western Region  
Pipeline and Hazardous Materials Safety Administration
