**CPF 5-2024-008-NOA
Closure Letter**

Dear Mr. Pollema:

From October 11 through 14, 2022, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, inspected Midway Sunset Generation (Midway) company's procedures for control room management in Fellows, California. As a result of the inspection, Midway was issued a Notice of Amendment on March 4, 2024, which proposed amendment of your procedures.

Midway submitted its amended procedures on April 3, 2024. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
