**CPF 5-2024-013-NOA
Closure Letter**

Dear Mr. Jans:

From March 6, 2023, through March 9, 2023, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), pursuant to Chapter 601 of 49 United States Code (U.S.C.), inspected Midway Sunset Cogeneration's (Midway) natural gas transmission line from the Kern River tie-in to the Midway Plant in Fellows, California. As a result of the inspection, Midway was issued a Notice of Amendment on July 11, 2024, which proposed amendment of your procedures.

Midway submitted its amended procedures on August 9, 2024. My staff reviewed the amended procedures, and it appears that the inadequacy outlined in this Notice of Amendment has been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
