For Quarterly Period Ending: April 30, 2010

Progress to Date:

Both the external corrosion model (Task 3) and the internal corrosion model (wet gas- Task 1, and dry gas- Task 2) and the model results have been summarized into two draft papers to be presented at the 8th International Pipeline Conference in September, 2010 in Calgary. These two papers are still under review. A presentation is also scheduled to present some of the internal corrosion model results at the 2010 MS&T Conference in Houston, in mid 2010.
