RE: Grant DTPH56-10-G-PHPS02 Progress Report, SF-425 Mid-term Financial Status Report, and SF-270

Dear Ms. Munoz and Ms. Robertson,

The Grant awarded to Call Before You Dig had two components to it. One was the upgrade to the telephone system and the other was the production of the new safety video.

I am please to inform you of the completion of the telephone system upgrade. The grant funding for the telephone system completes 78% of our grant project.

The funding awarded for the telephone system was \$76,070.90. Our total cost for the system was \$77,926.34. The overage was due to shipping cost of \$711.47 not accounted for in the grant submission, wiring deficiencies of \$1,100.28 discovered during the system upgrade, and additional sales tax of \$43.60. Call Before You Dig Plans to pay these overages out of pocket, so the full amount of \$21,306.00 awarded for the Safety Video can be applied to that project.

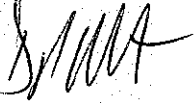

I have attached copies of the invoices paid for the telephone system upgrade. Invoice 33991-REV, \$45,000, is the down payment for the contractor to begin work. Invoice 33991-B, \$31,825.06, is the balance of the completed project which includes the shipping cost. Invoice 34445, \$1100.28, is the replacement of the deficient wiring.

Included in this report, I have attached the SF-425 Mid-term Financial Status Report and the SF-270 requesting the remaining funding of the grant.

I hope you find this report satisfactory.

If you have any questions, please contact me via email or telephone at 860-613-3070.

Best regards,

Dean P. Muratori, President
